THE FUTURE OF PRECISION 6-D

[LEARN MORE](#)

ALIO, (which is Latin for “A better way.”) is an innovator of True Nano Positioning® motion systems. ALIO’s designs exceed current standards of precision, performance and quality, with the industry’s first **3-year warranty**. Holding patents for Hexapods, the Hybrid Hexapod®, the Nano Z® and patents pending on additional motion platforms, ALIO has set the pace for 6-D Nano Precision® motion.

\$29,900

Statement from Bill Hennessey Founder/CEO

Creating products that enable novel and revolutionary processes is our passion at ALIO while making sure we never sacrifice our character. At ALIO, we are all proud to be considered the precision and quality leader for novel new motion applications around the world, solving new and decade old motion precision issues for healthier lives and a better world.

Thank you for considering ALIO for your next motion system needs. We would also like to send a *Special Thank You* to our loyal customers who have continued to purchase our Hybrid Hexapod®, Monolithic XY stages, Air Bearing systems, and other products throughout the years.
